CHAPTER 4

MADE EASIER

THE EXHAUST SYSTEM

The simple version

• The idea in a flash

Hot gas leaves the engine through the exhaust, and on the way it is cleaned and quieted.

Simplified drawing. The order can vary

Just 5 things

1. 💨 **The exhaust carries hot gas out of the engine.**
2. 🧪 **The catalytic converter cleans harmful stuff out of the gas.**
3. 🔇 **The muffler quiets the sound of the explosions.**
4. 📢 **A loud sound doesn’t mean speed.**
5. ⚠️ **The smell of exhaust inside the car is dangerous. Open the windows.**

• 5 words are enough

Word		What it means
Headers	Headerz	The first exhaust pipes.
Catalytic converter	Dubba	Cleans the gas.
Muffler	Shakman	Quiets the sound.
Resonator		Reduces the drone.
Cat-back		From the converter to the tip.

🎯 Test yourself

🎯 Challenge 1 **What quiets the exhaust sound?**

A) Muffler B) Headers C) Catalytic converter

🎯 Challenge 2 **Does a louder sound mean more speed?**

A) Definitely B) No

✅ **Answers:** 1) Muffler. 2) No.
