CHAPTER 10

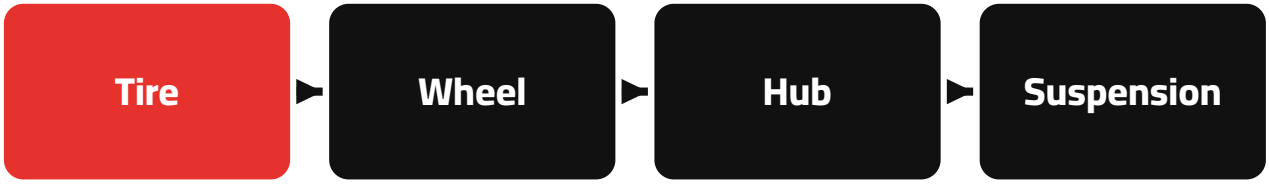

MADE EASIER

TIRES & WHEELS

The simple version

• The idea in a flash

The tire is the only thing that touches the road.

Just 5 things

1. 🌡️ **Pressure is the most important number.**
2. 🌧️ **Grooves push the water away.**
3. 🔍 **Wear tells you about problems.**
4. 📐 **Wheel angles affect wear.**
5. ⚖️ **A lighter wheel usually improves handling.**

• 5 words are enough

Word		What it means
Pressure		The air in the tire.
Tread		The surface that touches the road.
Camber		The tilt of the wheel.
Balancing		Evening out the wheel's weight.
Wheel	Rim	What the tire is mounted on.

🎯 Test yourself

🎯 Challenge 1 **The most important number on your tire?**

A) Pressure B) Colour C) Brand name

🎯 Challenge 2 **What do the grooves do?**

A) Reduce weight B) Cool the gearbox C) Push the water away

✅ **Answers:** 1) Pressure. 2) They push the water away.
